## Work Experience

---

**Internship Experience: Forschungszentrum Jülich, IEK-13**

*Apr - Aug 2023*

During my master's thesis internship at Forschungszentrum Jülich in Germany, I had the opportunity of conducting research on the topic: "Model-Based Comparative Assessment of Frequency Response Diagnostic Methods for Electrochemical Energy Devices." I gained skills in modeling, simulation, analysis, and collaboration with a multidisciplinary team.

---

## Education

---

- **2022-2023:** Master 2 of Green Hydrogen Production and Technology, Université Felix Houphouët Boigny (UFHB) of Cocody, (Ongoing), Abidjan (CÔTE D'IVOIRE).
- **2021-2022:** Master 1 of Energy and Green Hydrogen, Université Abdou Moumouni (UAM), Niamey (NIGER).
